

Power Window can be notoriously naughty; causing great inconvenience and embarrassment when it fails on you!

"Power Window" yang rosak amat menyukar dan memalukan!

Why Power Window Fails!

Ordinary power window is made of plastic, both inner panel and regulator. *It is not made to last!* And the plastic fixture hole cracks easily. At best, such plastic power window is only good for a couple of years.

Power up your window, hassle-free!

AV Power Window is made of galvanized steel. It is rigid, dependable and lasting. It has undergone extreme test of 30,000 cycles using Mabuchi motor (OEM quality). Aventur Door System Sdn Bhd, the inventor and manufacturer is duly endorsed by the stringent German TÜV certification.

Mengapa "Power Window" boleh rosak?

Panel dalaman dan regulator "power window" biasa dibuat daripada plastik. Ia tidak tahan lama! Lubang pemasangan pada panel plastik mudah retak. "Power window" plastik begitu hanya tahan paling lama, 2 tahun.

Naikkan "Power Window" anda, tanpa masalah!

AV Power Window dibuat daripada keluli tahan karat, ianya teguh, boleh diharap dan tahan lama. Ia telah melalui 30,000 pusingan ujian ketahanan menggunakan motor Mabuchi (mutu OEM). Pencipta dan pembuatnya, Aventur Door System Sdn Bhd telah menerima pengiktirafan badan pengesanan terkemuka Jerman TÜV.

AV Power Window

- **Low maintenance**

- Parts can be replaced separately

- **Mudah diselenggara**

- Komponen boleh diganti berasingan

Mabuchi Motor (BEM quality)

- **Uses scissors type regulator**

- Rigid steel arm ~ high tensile strength (over 400N/mm²)

- Doesn't detach like ordinary cable regulators

- **Menggunakan regulator jenis "scissors"**

- Pelatong keluli yang teguh ~ daya kekegangan tinggi (lebih 400N/mm²)

- Tidak masalah kabel putus seperti dengan regulator biasa

- **Inner panel made from galvanized steel**

- Highly durable, doesn't crack like plastic

- Rigid design to avoid unwanted vibration

- **Panel dalaman dibuat daripada keluli tahan karat**

- Tahan lama dan tidak akan retak seperti plastik

- Rekaan teguh mengelakkan sebarang gegaran yang tidak diingini
